

Chromium Max

Brand: Lindens
Product Code: L16
Availability: 10
Weight: 0.10kg

Price: £7.99

Short Description

Chromium is a trace mineral which supports normal macronutrient metabolism and contributes to maintenance of normal blood glucose levels. Each Lindens Chromium 1000µg tablet yields 1000µg elemental chromium, 2500% NRV.

Description

- Hugely popular with slimmers
- Supports the maintenance of normal blood glucose concentrations
- Supports metabolism
- Massive strength 2500% NRV tablets

Chromium is an essential trace mineral meaning it is needed by the body in small amounts. The nutrient can be obtained by our diet but recent studies have found that some people do not get sufficient levels from their diets. Chromium can be found in eggs, meat and whole-grains thus vegetarians and vegans may have insufficient intake from their diets.

Chromium contributes to the maintenance of normal blood glucose levels. Chromium also contributes to normal macronutrient metabolism. Macronutrients are nutrients that provide calories or energy and are needed for our survival. Nutrients are substances needed for growth, metabolism and for other bodily functions. There are three macronutrients: carbohydrate, protein and fat.

Lindens Chromium Max Tablets contain a highly-bioavailable form of chromium, the organic salt chromium picolinate, yielding 1000µg elemental chromium per easy-swallow tablet, a super-potent 2500% NRV dose!

With Lindens®, you can expect:

- ? An established UK manufacturer based in Yorkshire
- ? ISO 9001 Certified for Quality Management Systems
- ? Dedication to excellence, innovation and satisfaction
- ? Resealable, light-proof, foil-fresh pouch packaging
