### Short Description

Apple Cider Vinegar with Kelp, Lecithin and Vitamin B6, contributing to the normal energy-yielding metabolism, immune system and the reduction of tiredness and fatigue, in a convenient capsule.

### Description

- Contributes to healthy metabolism
- Contributes to healthy thyroid function
- Contributes to the reduction of tiredness and fatigue
- Convenient easy-swallow capsules

The use of apple cider vinegar has been a staple of tradition and folklore for many centuries. Vitamin B6 also known as pyridoxine, has many benefits including providing support to the nervous system, brain function and red blood cell formation. It can also aid in reducing tiredness and fatigue and without it, the body would not be able to absorb vitamin B12. Contains kelp, a source of iodine which contributes to healthy thyroid function and energy-yielding metabolism. Contains lecithin, a source of choline which contributes to the healthy metabolism of lipids.

**Iodine** contributes to normal:

- cognitive function
- energy-yielding metabolism
- functioning of the nervous system

- maintenance of normal skin
- production of thyroid hormones and thyroid function

**Choline** contributes to normal:

- homocysteine metabolism
- lipid metabolism
- liver function

**Vitamin B6** contributes to normal:

- cysteine synthesis
- energy-yielding metabolism
- homocysteine metabolism
- protein and glycogen metabolism
- psychological function
- red blood cell formation
- function of the immune system
- reduction of tiredness and fatigue
- regulation of the hormonal activity
